**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a small business owner working from home in a semi rural area. We have no choice but to subscribe to satellite internet and TV and the rates are extremely high. Having a choice for real internet that is competitively priced make a difference in our business bottom line and in our childrens education. More competition by having a choice of providers makes all the sense in the world so rates for much needed services stay reasonable. We do not yet have fiber although we are told it is coming. Keeping a wide range of players in the game ensures the anti monopolistic practices our government was founded on! Please do not allow price hikes that will surely increase rates to all of our digital services!
